Professional Coffee Monitoring Platform

Ensure the highest coffee quality and maximize profitability.

WHAT IS CUPSENSE?

Powerful platform for monitoring professional coffee machines that includes:

- ☪ A web application that gives insight into coffee consumption, quality, and machine status in real time.
- ☪ Telemetry device installed into any old or new machine that collects real-time data and sends it to CupSense web application.

WHO IS CUPSENSE FOR?

Coffee roasters

Coffee shops and chains

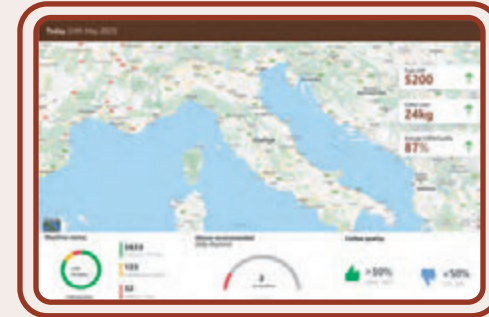

Coffee machine makers

Coffee distributors

WHY CUPSENSE?

- ☪ Maintain quality by tracking machine & grinder parameters
- ☪ Protect coffee brand quality and avoid sales drops
- ☪ Track coffee quality variability between locations and shifts

- ☪ Track peak hours to schedule optimal shifts
- ☪ Cut technician costs with proactive maintenance
- ☪ Optimize daily dispense to extend operational lifespan
